

QUALITY POLICY

Quality Policy

Our experienced employees are highly committed and use efficient working methods to deliver high-quality results. Their contributions are crucial in setting us apart and ensuring that our customers always get what they need.

Experience

Everyone working as a consultant through Your Partners or recruited by us must meet high standards of professional competence and have documented experience. Through our developed procedures, skilled managers, and continuous follow-up and development, we offer an unrivaled consultant package that is an important part of Your Partners' quality.

Right Competence

At Your Partners, we are experts in finding and recruiting qualified consultants. By specializing in identifying and recruiting qualified consultants, we have developed a sharp ability to recognize the skills our clients need. This means we can offer both our clients and employees a high level of quality and assurance in assigning the right competence for each assignment. This ensures that both our clients and employees can be confident they receive the right expertise for each task.

We are proud to offer both high quality and strong specialization in recruitment and consulting services.

Commitment

At Your Partners Group, we strive to always give our clients that little extra. We are dedicated to our work and ensure that what needs to be done is not just performed but accomplished. We know that commitment cannot be taught; you either have it or you don't. Therefore, we are very careful to only hire employees who are committed so that we can deliver the expertise our clients expect from us. The same commitment is extended to those recruited or working as consultants through us at Your Partners Group.

Working Method

During the short time we have been in operation, we have developed our working methods and processes to get as close to perfection as possible. At the same time, we continue to question our ways of working and look at what can be improved so that we can become even more efficient and better at everything from recruiting new employees to executing assignments and follow-ups.

Requirements

Your Partners Group complies with all applicable laws and regulations and ensures that these are translated into appropriate actions in all parts of the operation. All decisions are made with consideration of legal requirements and other binding requirements.
